

International Travel Requirements for Terra Dotta

Once international travel is allowable for BSU-associated activities, although the travel may have already been approved, a **NEW** application will need to be submitted through [Terra Dotta](#). All previous uploads into Terra Dotta for restricted travel have been removed from the system.

The application must include **detailed and accurate** physical locations and personal contact information. Throughout this crisis, we found the ability to contact our travelers either directly or through the hotel front desk was vitally important. Our ability to do so was dependent on the accuracy of the information provided in Terra Dotta.

For questions on international travel, please contact either 765-285-5052 or email intliaison@bsu.edu or ORM@bsu.edu.

We appreciate your patience and understanding, as the Terra Dotta approval process assists in ensuring your travel safety.
